Manipal Institute of Technology

09/2020 - Present,

GPA - 7.0

PROJECTS

Movie recommender System

- ▣ The main objective of this movie recommendation system project is to design, develop, and evaluate a machine-learning model that can recommend movies to users based on their historical preferences and behavior.
- ▣ The primary motivation behind this project is to explore the world of recommendation systems and address movie enthusiasts' common dilemma: "What movie should I watch tonight?"

House Price Prediction

- ▣ The primary objective of this project is to develop a robust and accurate machine learning model for predicting house prices.
- ▣ By leveraging data analysis and predictive modeling techniques, the project aims to provide valuable insights to homebuyers, sellers, and real estate professionals.

Fitness Website

- ▣ The fitness website is a group project focused on web development. It is designed to assist customers in creating and maintaining their fitness websites by providing customized suggestions and features

CERTIFICATES

Programming Fundamentals - Duke University
